1998 COMPLETE CITADEL MINIATURES CATALOG

Welcome to Games Workshop's 1998 Complete Citadel Miniatures Catalog. Within these pages you will find pictures for the entire range of Citadel Miniatures for Warhammer and Warhammer 40,000. All the models are shown at **ACTUAL SIZE**, except in some cases, such as units of miniatures and the color battle shots, where we had to reduce the image to fit on the page. When possible we have pictured the miniatures in the catalog pages next to their blister "mates". Duplicate miniatures will occasionally be shown when models are packed with more than one variant. You can find packaging details at the bottom of each code section, which lists the accessories that come with each particular model. Games Workshop's plastic slottabases are supplied with all miniatures that require them.

THE WARHAMMER HOBBY

In a fantasy world amidst the clash of swords and the blare of trumpets, mighty warriors meet on the fields of battle. Like the crack of a lightning bolt, lances split as gallant knights crash into the massed ranks of stalwart foot troops. Archers darken the sky with deadly volleys of arrows, while great cannons are brought to life with thundering booms. Using Citadel Miniatures, Warhammer, the Game of Fantasy battles brings all the excitement of commanding vast armies of noble warriors to your tabletop!

GETTING STARTED

The hobby starts with your first Citadel Miniature. From there, you can advance to painting your model, collecting an army, and playing a game.

A WORLD IN A BOX

The best way to get into the hobby is with the Warhammer boxed game. Packed full with 88 of our finest plastic miniatures, the box contains rules, dice, and everything you'll need to play. Any flat surface becomes the battlefield where you and your opponent can maneuver mighty armies of Citadel Miniatures in a test of tactical skills and battle prowess, but the hobby doesn't end there.

One of the great Lizardmen models.

EXPANDING YOUR GAME

The excitement and fun of playing a tightly contested battle is just the start of the Warhammer hobby. Players can expand their armies, adding special troop types, exotic war machines, powerful magics, and terrifying monsters.

CITADEL MINIATURES

Citadel Miniatures makes a vast range of plastic and pewter models for use with Warhammer. There are thousands upon thousands of different models to choose, from evil Egrimm Van Horstmann mounted on the fearsome Chaos Dragon Baudros, to a unit of the brave and gallant Bretonnian Knights, or the short and hardy Dwarf Warriors.

Not only is Van Horstmann an unstoppable Chaos Sorcerer, but he makes an impressive centerpiece for any Chaos Army.

From start to finish: the stages of painting a Citadel Miniature.

BASIC STEPS TO PAINTING MODELS

Above: Priming is a crucial step in properly painting a model.

Below: Base coating the model is the next essential step.

BRILLIANTLY PAINTED MINIATURES

Part of the Warhammer hobby is painting figures. Nothing brings a tabletop battlefield to life like a well painted army of Citadel Miniatures. Games Workshop has created the Citadel Colour range of paints specifically for our models. In order to help beginners get started, the Warhammer

boxed game contains a basic painting guide. By using a few fun but simple to learn techniques, players will soon have an army to be proud of. For more advanced techniques look to the monthly painting feature in White Dwarf magazine.

Left: After the model is basecoated it's time to shade, highlight and finish the base. Special models can be given banners by drawing a design on paper and using the same painting process.

An army of Dwarfs digs in and prepares to meet the foul Dark Elves.

BUILDING THE BATTLEFIELD

The first few games will most likely be played on the kitchen table with the supplied buildings in the boxed game. It isn't long before players want to game on more elaborate tables filled with vast forests, rolling hills and rocky outcrops, or perhaps on the banks of some mighty river. Varied terrain allows the creation of special scenarios. For example, in one game you could be defending a crucial bridge, and in another assaulting the gates of a castle. Making scenery is part of what makes Warhammer more than a single game, but a complete hobby as well.

Games Workshop not only makes fine miniatures, but great scenery bits as well. Battling it out on the kitchen table works for a while, but sooner or later you'll want some hills for your artillery, woods for your scouts to hide in, and some cool towns to defend!

This catalog is intended to be your complete guide to the Warhammer hobby. With this essential tome in hand, tabletop generals and model collectors can now, at their leisure, pore over the entire line of Citadel Miniatures for Warhammer.

Brettonnia

Brettonnia is the land of Chivalry and Honor. Great Knights mounted on the backs of magnificent warhorses charge into battle. Supported by their Squires and Men-At-Arms, they protect the land of Brettonnia and their revered Lady of the Lake.

BLOOD AND HONOR

The land of Brettonnia is one of the greatest realms in the Old World, second only to the Empire in size, wealth, and military prowess. Much like the Empire, Brettonnia was once home to many different human tribes that fought amongst themselves for control of the land. It wasn't until the whole of Brettonnia was threatened by a massive Orc invasion that it

started to form into the proud

nation that stands today. Brought together under the brave leadership of Giles le Briton, a massive campaign was launched and Giles won twelve straight battles, ridding the land of the Orc threat. Appointed the Overlord of Brettonnia, Gilles continued to battle against the Orcs, Chaos and other foul vermin that plagued the land.

CHIVALRY

It wasn't until the reign of Gilles son, Louis, that the Knightly orders and the code of Chivalry that embodies Brettonnia today was formed. Knights Errant are the first and lowest order of the Knighthood. These young

warriors set out on quests in order to prove their worthiness. Knights of the Realm make up the most numerous of the orders. Proven in battle and worthy of the title of Knight, they serve as lords and dukes, protecting the realm and its peoples.

Questing Knights set aside their worldly possessions and set out on a holy quest to find the Grail and gain the favor of the Lady of the Lake. Grail Knights are the highest order of knights and are the very embodiment of Chivalry. Having succeeded in their quest for the Grail, they have sipped its contents and gained the favor of the Lady of the Lake.

The orders of knights are supported by retinues of commoners or Men-At-Arms. Regiments of Bowmen are raised from the villages to give valuable long range support to the knights. Basic infantry comes in the form of deadly regiments of Halberdiers and defensive units of Spearmen. With the variety of steadfast cavalry, and solid infantry, the armies of Brettonnia stand ready to repulse any who try to desecrate their beloved land.

CHAOS

In the north lies a land where time and space is warped. It is a place of horrid mutations and death, where winds blow across a desolate and sandy landscape. Here roving bands of warriors fight for the favor of their evil gods, and gibbering Daemons roam free.

THE GREAT COLLAPSE

The Northern Chaos Wastes were not always in their present state. Once it was the sight of a great portal constructed by the Old Ones, an enigmatic race that one day appeared on the Warhammer World. What exactly caused the portal to collapse shall remain a mystery, but the consequences are clearly evident. The resulting collapse flooded the area with magical energy that spread out and saturated the land. With it came great mutations to both the landscape and those unfortunate enough to be caught in the ensuing flood of energies. The rift allowed horrors beyond the world to enter, now known as the Chaos Gods: Tzeentch, Slaanesh, Nurgle, and Khorne.

Bloodletters are fierce Daemons of Khorne who wield terrible swords known as Heilblades

THE CHAOS GODS

There are four Chaos Gods who rule the infernal region known as the Realms of Chaos. Khorne is the Blood God, the god of battle who revels in war and spurns the use of magic. Nurgle is the Great Lord of Decay who presides over physical corruption and morbidity. Slaanesh is the god of decadence and pleasure and of the terrible temptations that only a god can offer. Tzeentch is the Great Sorcerer, the god of magic and master of the mutable time-stream. Together

these gods weave webs and plots to undue the reality of the world and spread chaos to every corner of every realm.

A HUNGER FOR POWER

The Chaos hordes are made up of terrible monsters. Daemons, savage Beastmen, and humans whose lust for power have driven them to evil and unholy ends. In the mountains roam terrifying beasts, like Griffons, Hippogriffs and Manticores, created by the mutating properties of magic. In the forests, bands of ferocious Beastmen wait to raid unsuspecting villages for food and sport. Daemons, terrible creations of magic, spread their terror and wreak havoc all in the name of their arcane masters. The most depraved followers of Chaos, however, are the humans. Drawn by the whispered promises of power, they sell their souls for greater magical abilities, or for more skill and prowess in battle. Appearing on the battlefield as great Chaos Sorcerers, menacing Chaos Warriors, or even the appalling Chaos Knights, they spill blood in the names of their patron god and gather their enemies' skulls for glory.

A Beastman Shaman. The Beastmen serve no mortal master, but belong heart and soul to the Dark Gods of Chaos

Aided by his awesome Destroyer power Arbaal is a living whirlwind of death and destruction. Constantly under the iron gaze of Khorne's scrutiny, Arbaal has never lost in battle to this date.

0738 PLASTIC BEASTMEN

Found in the Chaos wastes and the darkest forests, Beastmen loathe other creatures, but despise humans above all else. Beastmen fight with a brutal lack of discipline and an unmatched savagery.

CHAOS DWARFS

Chaos Dwarfs are a vile people, waging wars and enslaving thousands to work their foul mines. The smoke of hundreds of forges choke the air and the desolation of mining deposits cover the earth, turning the landscape into a blasted wasteland. On the top of obsidian temples, the evil Chaos Dwarf Sorcerers sacrifice hundreds of slaves in the name of their Dark Father, Hashut.

THE DESCENT INTO DARKNESS

Before the fall of their great Empire, the Dwarf Realms spread across the mountain ranges from the cold and windswept lands of Norsca to the blasted plains east of the World's Edge Mountains. When the great Polar Gates collapsed and the tide of Chaos swept through the world, most thought the Dwarfs to the east were lost and destroyed. Dwarfs are a robust people and rather than being wiped out, the warping tides of chaos mutated them into grim shadows of their former selves.

Chaos Dwarf Warriors are heavily armored, naturally tough, and determined fighters.

THE SONS OF HASHUT

When the tides of Chaos rolled through, some of the Chaos Dwarfs were drastically changed physically, a few becoming the great Bull Centaurs, guardians of the Temple of Hashut. It is even rumored that the Great Taurus and the hideous-faced Lammasu were once Chaos Dwarfs. One of the biggest changes that came over the Chaos Dwarfs was their embrace of sorcery. They became mighty wizards and used their power to raise temples dedicated to Hashut.

The mighty Death Rocket is one of the powerful war machines in the Chaos Dwarf Army.

THE DRUMS OF WAR

When a Chaos Dwarf Army marches to war or in search of slaves they bring a variety of troops. Chaos Dwarf Warriors form the steadfast core units, supported by regiments of the devastating Blunderbusses. These core units are in turn supported by the elite Bull Centaurs, the terrible Great Taurus, and the Lammasu. Because Chaos Dwarfs are few in number they usually coerce mobs of Goblins and Orcs to fight for them. Hobgoblins readily fight for Chaos Dwarfs, giving the army some much needed speed with their Hobgoblin Wolf Riders. Of course no

Chaos Dwarf army is complete without heavy artillery. With their devastating Earth Shaker Cannon, not only can they wipe out units, but its destructive blasts are so huge it can knock nearby units to the ground!

Not only do Chaos Dwarf Sorcerers make remarkable wizards, but they are powerful warriors too.

The Chaos Dwarfs are a vile black hearted race forever waging war in their relentless search for victims to enslave. Surrounded by the smoke of a thousand forges, the foul culture of the Chaos Dwarfs lies deep inside the Dark Lands, far below the better earth, the tortured slaves labor in chains endlessly seeking out precious metals and minerals for their evil masters' plans.

This book is a compilation of Chaos Dwarf articles from White Dwarf magazine. It includes a complete Chaos Dwarf army list and rules for their unique characters, troops and war machines.

DARK ELVES

There is one name whispered in the Warhammer World with both complete fear and hatred. These marauders sail the seas on great Black Arks and are trailed by sea monsters too horrible to mention. When they make landfall it signals a period of war, destruction and death. They live for the thrill of the kill and the pleasure of enslaving others, they are the Dark Elves.

Dark Elf Sorcerers, use dark forbidden magic to torture and destroy their enemies.

A HISTORY STEEPED IN BLOOD

Dark Elf society is centered around war. They know no peace, having been banished to the frozen lands of Naggaroth centuries ago. They face the constant threat of invasion from the north by Chaos Hordes, and from the south they continue their never ending war with the High Elves. Embedded in conflict for over 5,000 years with their hated cousins, the High Elves, the Dark Elves strive to reclaim the homeland they were driven away from so long ago. Having embraced the ways of Dark

Magic the Dark Elves descended into total and utter decadence. They revel in the killing and the spilling of blood and take extreme pleasure from watching their enemies suffer.

DARK PACTS

All Elves are a race touched by magic. No exception are the Dark Elves, who began their descent into decadence with the studying of the forbidden Dark Magic. After thousands of years, they have become supreme masters of their art, able to cast vile spells, and call forth evil Daemons in the blink of an eye.

MALICIOUS INTENT

Dark Elf Warriors are cruel and fierce fighters. They are lithe and sinuous, their muscles are strong and their reactions are every bit as quick as their agile minds.

Dark Elf Warriors wear distinctive and highly ornate armor. They carry cruel swords or spears and many are armed with a deadly Repeater Crossbow which shoots a hail of small, barbed arrows.

The Dark Elf Army is also replete with elite units such as the Cold One Knights. They ride ancient reptiles known as Cold Ones that live underneath the frozen lands. Dark Elf Corsairs fight from the decks of the great Black Arks. Protected by the impenetrable Sea Dragon Cloaks, they fight with a sword or axe in each hand. They are renowned for their dazzling and ferocious skill in combat. Perhaps the most feared are the deadly Witch Elves, who go into bloody frenzies when fighting, allowing them to literally carve their way through the enemy.

CONQUEST OF EVIL

The Dark Elves are on a continuous quest to take back their homeland of Ulthuan. However, until that glorious day comes, they are content to raid the cities and ports of other races, killing for pleasure and taking slaves.

Left: A Dark Elf Champion. Right: Some Dark Elves are raised from birth to be trained killers. These warriors eventually become the feared Dark Elf Assassins.

In battle it drives the Witch Elves to an even greater pitch of frenzy, while its magical properties serve to sustain and protect them.

DARK ELVES

0531

THE BEASTLORD RAKARTH

The Dark Elves have always made great use of enslaved monsters, but none have ever approached the mastery of the Beastlord Rakarth. In fact, Rakarth can even tame the opposing player's monsters and use them for his own cruel purposes. It is said that the dungeons of Karond Kar are full of the creatures he has tamed.

Armed with the magical Whip of Agony, the Beastlord Rakarth rides to battle on an enormous Dragon that he has broken to his will.

DARK ELVES

0509 DARK ELF BOXED ARMY

Shudder in fear for the next dreaded boxed army: the Dark Elves, has arrived from the frozen lands of Naggaroth. Commanded by Shadrak the Slayer, he leads his followers onward into battle mounted on the back of a fearsome Cold One. With the General ride the rest of the Dark Elf Cold One Knights, their Blood Banner raised high. Dark Elf Warriors and the halberd-wielding Black Guard march forth ready to cleave their enemy in two. Dark Elf Crossbowmen hold the high ground, sending volley after volley into the enemy's ranks. Witch Elves charge forth with blood-curdling screams, driving their foes before them with their frenzied attacks. Harpies sweep down from the sky, tearing through armor with their razor-sharp claws and teeth. Dark magic billows forth from the Dark Elf Mages, corrupting all in its path. And the deadly Repeater Bolt Throwers spring to life, skewering the enemy on gigantic bolts. Nowhere in the Warhammer World is safe from the ravages of the Dark Elves, and all the races shall cower before their might!

0137 WARHAMMER ARMIES DARK ELVES

Warhammer Armies, Dark Elves describes the history of the Dark Elf race since the Sundering - the cataclysmic result of the bloody civil war which divided forever the Dark Elves from their High Elf kin, and drove the Witch King and his savage followers northward into the Land of Chill.

FORCES OF BATTLE

Warhammer Armies, Dark Elves contains a complete army list for the forces of the Witch King and the Dark Elf armies of Naggaroth. The Dark Elf forces include Dark Elf Sorcerers, Executioners, Black Ark Corsairs, Dark Riders, Assassins, Witch Elves, Scouts and the deadly reptilian war beasts known as Cold Ones. The Special Characters section includes the full background and rules for some of the greatest heroes of the Dark Elf race such as Hekethron Hag Queen of the Witch Elves, Shadowblade Master of Assassins, and the Witch King himself.

WAR MACHINES AND MAGIC

This book also contains rules for the Dark Elf war machines such as the deadly Repeater Bolt Thrower and the mysterious Cauldron of Blood, together with a selection of new Magic Items. The 'Heavy Metal' pages cover a wide variety of Dark Elf regiments and include many full-color banner and shield designs.

DWARFS

The Dwarfs are mighty warriors able to bear the load of armor that would cause a man to collapse, and swing mighty two-handed hammers that can crush their enemy with a single blow. Slow to forget a slight, they are known throughout the world as grudgebearers, and are always ready to take revenge for their ancestors.

THE DWARF EMPIRE

Long before the cities of man arose, before the Elven ships landed on the coasts of the Old World, the Dwarfen realms spread across the World's Edge Mountains. The Dwarfs carved their strongholds out of the mountains themselves and mined the riches they found within. Stout warriors and master forgers, their armies marched onward and the Dwarfs claimed the Old World for their own.

THE GREAT CATAclySM

The Dwarf Empire was so strong and vast that only a string of cataclysmic events could have brought the realms to its knees. It was only a matter of time after the Dwarfs and Elves first met that the two would come to blows. Both being a proud and haughty race, they do not take slights very easily and eventually they went to war in what was called the Great War of the Beard. This war exhausted the forces of both races and ended in stalemate. The Dwarfs retreated to their mountain strongholds and barred the gates.

Then came the great rift when the old volcanoes in the Dwarf realms erupted and great earthquakes tore the mountains apart. Many strongholds were destroyed and its defenses left in ruins. It was not long before

Orc and Goblin hordes overran the shattered realms.

BY THE BEARDS OF THEIR ANCESTORS

The bulk of the Dwarf Army is made up of Dwarf Clansmen who go into battle wielding finely crafted axes, spears, or even great two-handed axes. Too short to use bows, Dwarfs adopted the crossbow and handgun as weapons of choice to give covering fire for their infantry.

Because they live in a constant state of warfare, Dwarfs have a wide range of elite units to choose from. The oldest Dwarf

warriors are known as **Long Beards**. These cantankerous old fellows are always complaining about how today's Goblins are just smaller and weedier than the ones they had to fight when they were young. Dwarf Hammerers are the King's personal bodyguard. They go into battle wielding deadly two-handed hammers that can crush the enemy in one great heave. Dwarf

Slayers are Dwarfs that have been spurned and have left the safety of the strongholds to find their lost honor by fighting the biggest and baddest monsters. Living in the mountains the Dwarfs had no practical use for cavalry so they look to their fantastic war machines to give them an edge. Whether it is from the burning whoosh of a **Flame Cannon**, or the churning of the blades on the mighty **Gyrocopter**, Dwarfs are never lacking for artillery. It seems Dwarfs are always ready to show another army the

error of its ways from the business end of a big cannon barrel.

Dwarf Runesmiths forge powerful runic weapons and have been known to ride into battle on the top of large anvils!

The Dwarf army is full of missile troops like this Dwarf Thunderer.

0828 DWARF KING'S THRONE OF POWER

The most powerful of all Dwarfen Relics, the Throne of Power has borne the Dwarf High Kings to battle since the dawn of time. Carried by four stout Dwarfs, the Throne cuts a bloody swathe through any troops foolish enough to get within charge distance.

0133 WARHAMMER ARMIES DWARFS

For thousands of years the great Dwarf Empire has endured amongst the World's Edge Mountains. Centuries of war and conquest have hardened the Dwarfs and molded them into the finest warriors anywhere. Countless battles against the Orcs, Goblins, and Skaven have embattered their hearts and sharpened their thirst for revenge. This invaluable companion to the Warhammer game of fantasy battles describes the armies of the Dwarfs in complete detail.

WAR AND CONQUEST

A history of the Dwarfs from glorious times of the Ancestor Gods to the constant warfare of present times. The Dwarf realms are described together with their many strongholds and mines, and the subterranean Underway which links them together. A section covers the Dwarf runic script and provides a description of their ancient language of Khazalid.

SPECIAL RULES

Complete game rules are provided for all Dwarf war machines and warriors including the Flame Cannon, Organ Gun, Slayers, and Runesmiths. A complete new magic rune system is described allowing Dwarfs to build their own powerful magic weapons, armor, shields, war machines, and talismans.

ARMY LIST

A complete army list for the Dwarf army including Runesmiths, Hammerers, Iron Breakers, Long Beards, Thunderers, Slayers, Cannons, Organ Guns, Flame Cannons, and more warriors and war machines. A full list is provided for Dwarf heroes past and present.

The Empire

Between the World's Edge Mountains and the Grey Mountains, nestled among the great forests lies the most powerful human realm in the Old World, The Empire. Here one of the world's greatest armies awaits its next challenge. Great Cannons stand ready to smash the enemy, crack units of Archers with arrows notched wait for their signal, and powerful Mages prepare to bend the winds of magic to their will.

A TROUBLED BIRTH

The Empire stands as a testimony to the fighting spirit of its inhabitants. It was born amidst great Orc and Goblin armies, incursions of Chaos hordes, and has even survived the evil scheming of the Skaven.

The realms stood divided and were nearly lost until one man wielding a mighty hammer arose to unite the human tribes together. This man, known as Sigmar, was a powerful warrior and led the Empire to great victories against its enemies. It was only a matter of time before the embattled humans made friends with the Dwarfs in the surrounding mountains and together they drove out the threats that plagued the early human settlements.

THE CULT OF SIGMAR

Sigmar stands as the founder and patron god of the Empire. His legacy has spawned a realm that produced many wonders, including: the mighty Imperial Engineers Guild which produced such marvels like the Imperial Steam Tank, and the Colleges of Magic where the powerful Empire Wizards are taught their powerful and archaic craft.

The Empire itself is made up of many provinces led by Elector Counts.

From each province troops are recruited to fight for the Empire.

Stalwart units of Halberdiers, keen-eyed Archers, young and brash Pistoliers, and daring regiments of Swordsmen to name a few. From the ranks of the nobles comes the King's personal bodyguard, the elite Reiksguard, and the other knightly orders: the savage White Wolves, the resplendent Knights Panther, and the fervent Knights of the Rising Sun.

Mounted or unmounted Reiksguard units can roll over enemy troops with their superior fighting skills.

KARL FRANZ

Today the Empire stands under the prosperous leadership of a great warrior the Emperor Karl Franz. Trade flows freely out of the cities, and its borders stand secure. Together with their long standing allies, the Dwarfs, the Empire strives to stem the Orc and Goblin menace, and crush the rising tides of Chaos.

Halberdiers are just one of the many foot troops offered in the Empire army.

The Empire is the largest and most powerful realm in the Old World. Its borders stretch from the Grey Mountains in the south to the Forest of Shadows in the north, encompassing prosperous cities, dark forests, tall mountains and continent-spanning rivers. This invaluable companion to the Warhammer game describes the lands and armies of the Empire in complete and colorful detail.

High Elves

Before the great cities of man arose in the Old World the High Elves had already settled over much of the land. As High Elves are skilled warriors and powerful mages, their kingdom spread from continent to continent, their sleek ships came to dominate the oceans and huge fortresses rose up on every coast. But then...

WAR FROM WITHIN

The Elves as a whole are a haughty and proud race, and it was only a matter of time before their pride clouded their judgment. Drawn into a war with the Dwarfs in the Old World the High Elves exhausted their forces. At their weakest they were suddenly betrayed by their own kin, now known as the Dark Elves. In a pitched battle for the throne

and Kingdom, the High Elves were able to drive back the Dark Elves, but at a terrible cost.

The White Lions are proficient with axes that enable them to make one of three special attacks.

THE REBUILDING OF AN EMPIRE

Their continent, Isle of Ulthuan, decimated by war, the High Elf citizens slaughtered, and their armies broken, the High Elves set out to refortify their land and start on the long road to

recovery. Every citizen was trained to fight and soon every Elf could be called on in the time of war. The powerful High Elf Mages came together and increased their considerable knowledge and skill with magic. Elite units of foot troops were reinforced and stood ready at a moment's notice. The Phoenix Guard, masters of the halberd fight in an eerie silence, never uttering a word. The White Lions of Chrace, the King's personal bodyguard go forth wielding great double-handed axes.

High Elf Mages are incredibly proficient in High Magic, the most potent form of magic in the Warhammer World.

The Shadow Warriors stand as the last few survivors of their province searching endlessly for their hated enemy the Dark Elves. The Sword Masters of Hoeth fight with huge two-handed swords, yet are able to wield them with as much speed and skill as a normal sword. Nobles gathered to form crack cavalry units like the Silver Helms and the Dragon Princes of Caledor. And Tiranoc Charioteers rumbled across the plains, drawn by fine Elven Steeds.

ETERNAL VIGILANCE

Today the Elves live in a period of regrowth. Old wounds have been healed and trade once again flows with the Dwarfs and the developing human nations. Great fleets of Elven ships ply the waters in trade and in war against their enemies. The High Elves are always on the alert ready to meet the next invasion from their Dark Elf kindred, an Orc and Goblin Waaagh, or the constant menace of the Chaos hordes.

High Elf steeds are prized above all others for their speed, power and loyalty.

LIZARDMEN

High atop the temples in the steamy jungles of Lustria sit the bloated Slann Mage-Priests. From there they use their supreme will and power to carry out the great cosmic plan. Supported by the brutish Saurus, the small and agile Skinks, and a host of other reptilian creations, the Slann ensure that the divine plan of the Old Ones will come to pass.

THE ARRIVAL

Long before the cities of man, before the Dwarfs sang their great drinking songs, before even the High Elves sailed across the oceans, the Old Ones ruled over the world. They came in great silver ships via a arcane portal over the North Pole and settled in the steamy jungles on what is now known as the great continent of Lustria. There they spawned the great Slann to help them in their divine plan. Great temples were raised, and for these the Saurus, Skinks, Kroxigors and other breeds were spawned. The Old Ones were so powerful that they changed the shape and climate of the world.

THE COLLAPSE

By some terrible mistake the polar gates collapsed and were destroyed, taking the Old Ones and the Slann of the first spawning with it. A great rift in the fabric of space occurred, and through this poured the foul force of Chaos and a great tidal wave of magic flooded the world. The remaining Slann were left to contemplate the Old Ones' Divine Plan. With their servants they carry on to the best of their abilities, letting none stand in their way for the Old Ones' will is supreme and their plan will be done despite the cost!

A SCALY HORDE

When the Lizardmen march to war, the world quakes. The Slann do not take well to those that interfere with the Old Ones, plans, and will go to any lengths to make sure the plan stays on course. The Slann Mage-Priests lead their servants into battle on the top of great palanquins carried by the strongest and

most fierce of the Saurus. The core of the army is made up of the small and agile Skinks. Though not the best in hand-to-hand they are good bowmen, and often carry poisoned arrows. The Saurus, however, are bred for close combat. With heavily muscled bodies and fierce snapping jaws they can take down the strongest warriors, while the Saurus Temple Guard can cleave

Towering over the battlefield, Kroxigors are mighty lizards able to cleave the enemy in half with their great bronze axes.

through the heaviest of armor with their powerful halberds. Even larger are the terrifying Kroxigors. Able to accompany Skinks or fight on their own, they are towering figures of destruction. Also pouring forth from the Lustrian jungles are more lizardmen beasts, like the high flying Terradons which swoop down upon enemy units dropping large boulders, and the great Stegadon that can crush enemy units underfoot. Surely, none can defy the will of the Old Ones, and those that try will pay with their lives!

Powerful warriors, few can stand up against the strong arms and gnashing teeth of the Saurus.

Small and speedy, Skinks can unleash volleys of poisoned javelins and arrows into their foes.

LIZARDMEN

0540 SLANN MAGE PRIEST ON PALANQUIN

The bloated Slann Mage Priest is carried into battle by the most exceptionally strong and dedicated Saurus who are chosen to become part of the elite Temple Guard.

0140 WARHAMMER ARMIES LIZARDMEN

Deep within the steaming Jungles of Lustria, the Lizardmen sound the drums of war. From mighty temples and fortified cities, they issue forth to defend their ancient civilization or conquer new lands. Under the guidance of their Slann Masters, the Lizardmen have come to unleash their cold blooded savagery upon the world.

SPECIAL RULES

The Bestiary describes the fearsome Lizardmen in all their guises, featuring Skinks, Sauruses, Kroaks, and the Slann Mage-Priests themselves. Also described are Cold Ones, Terradons, Stegadons and Salamanders, awesome reptiles bred ages past to serve the Lizardmen as mounts and beasts of burden.

ORCS & GOBLINS

With a thundering rumble, hordes of greenskins charge forward. Caught up in the Waaagh, Orc and Goblin tribes band together to fight for power, prestige, or to just pass the time. Found in every corner of the Warhammer World, no race is spared the constant invasions of the Orcs and Goblins.

PICK UP DAT AXE YA GIT'

Orcs and Goblins are arguably the most war-like race in the Warhammer World. In fact, if they didn't spend so much time warring with each other they would have crushed most of the Human, Dwarf, and Elven Empires long ago.

An Orc Invasion known as Waaagh is an awesome sight to behold. They start when an Orc or Goblin Boss gains respect through beating other Orc and Goblin tribes. Soon everyone is flocking to the winner's banner in hopes of being on the winning side (and what fun is war if you can't be on the winning side, right?). Soon thousands of Orcs and Goblins are united under one banner and

hungry for conquest. Many such Waaaghs are recorded in the annals of Human and Dwarf history, when huge armies came sweeping out of the mountains leaving complete destruction and desolation in their wake.

THE LADZ

Orcs, as a whole, are not very intelligent creatures but their determination to get what they want more than makes up for their lack of clever ideas or cunning plans. Their large stature makes them physically suited for battle. Made up of heavily muscled limbs and thick skins, they can shrug off wounds that would kill an ordinary human. Goblins are smaller, weaker, and not quite as well suited for fighting as their larger cousins. They will run from a fight unless they outnumber their enemy, or on the chance that the enemy is weaker, injured, or asleep. What they lack physically however is made up in cunning, shrewdness and their bizarre but effective selection of troops.

THE WAAAGH!

One of the greatest things about the Orc and Goblin Army is the variety of troops that can be fielded. Orcs come in a variety of sizes, ranging from regular Orc Boys to the rather large and intimidating Black Orcs. Savage Orcs are Orcs who shun the use of armor and steel weapons, relying on pure ferocity and a little bit of magical war paint to carry them through the battle. And of course there are the Orc Boar Boyz, an adventurous lot that ride huge, bloodthirsty war boars! Not content to be outdone, the Goblins have a myriad of troops themselves. Ranging from the crazy Goblin Fanatics, who are whirling balls of death, to Forest Goblins who scuttle about the field on top of Giant Spiders.

An Orc and Goblin force laid out on the battlefield is an impressive sight. With an almost endless variety of troops, they can meet and beat any force that is stupid enough or slow enough to get in their way.

Black Orcs are the biggest and toughest of all the Orcs, and will not rout when they see smaller Orcs fleeing from battle.

Top: Giant heads with teeth, Squigs are driven from their dens in dark caves and goaded into battle.
Left: Squig Hoppers can cause massive damage if they manage to land in the middle of an enemy unit.

ORCS & GOBLINS

0747

PLASTIC ORCS

Orcs are harsh and brutal warriors who love nothing more than a good scrap. If Orcs can't find any enemy to fight, they will quickly resort to battling it out amongst themselves.

0528

AZHAG THE SLAUGHTERER

One of the most infamous of all Orc Warlords, Azhag the Slaughterer led a legendary Orc Waaagh! rampaging through the very heart of the Empire.

Azhag rode to war atop a large and particularly ferocious Wyvern, but what really made Azhag dangerous was the Crown of Sorcery.

Another of Azhag's special abilities, and one that made his career as a Warlord so successful, is his ability to prevent the usual effects of Orc and Goblin animosity within 12" of his person. Other greenskins just wouldn't dare to disobey any of Azhag's orders!

ORCS & GOBLINS

0748 PLASTIC BLACK ORCS

The biggest and strongest of all Orcs, Black Orcs rely on brute strength and their two hand weapons to grind all opposition into the ground.

0755

PLASTIC GOBLINS

When grouped in large formations Goblins become incredibly effective troops, either swarming over the enemy in a wave of superior numbers, or darkening the skies with clouds of arrows.

0823

ROCK LOBBER

An awesome Orc war machine, the Rock Lobber hurls vast boulders across the battlefield to crush and flatten enemy units. The resounding "splat" of an accurate shot truly delights the Orcish mind.

ORCS & GOBLINS

0844 CHIEFTAIN GROM'S WAR CHARIOT

Spurring the ferocious wolves that pull his massive chariot to an even greater speed, Goblin Warlord Grom the Paunch crashes into the foe and splinters enemy units asunder

0544 GOBLIN CHARIOT

With a snapping of jaws and a rumble of wheels comes the Goblin Chariot! Pulled by ferocious wolves, the Goblin chariot wreaks havoc as it cuts through the enemy units with its serrated wheels crushing all those unfortunate enough to get caught in front of its path

ORCS & GOBLINS

0829 GIANT

The ground shakes with every monumental stride and even the bravest of warriors shake in their boots as a Giant bears down upon them. Immense size and strength make Giants especially formidable. No armor ever forged could stand a prayer against the walloping blows of a Giant's tree-trunk weapon. Giants have been known to use their tremendous size to stamp on opponents, pick them up, eat them, jump up or down on them, and even worse.

0545 ORC BOAR BOYZ

The most fierce of the Orc and Goblin calvary can be found in the Orc Boar Riders. Only the biggest Orcs can ride these powerful and rather foul tempered boars, which makes for a fast striking, elite unit that can crush all that dare stand in their way!

ORCS & GOBLINS

0522 ORC AND GOBLIN BOXED ARMY

Rampaging across the Old World are the Orc and Goblin hordes! Led by Grom the Paunch of the Irons Mountains, the mighty Waaagh has started. Helping him to marshal his troops is the fearsome Goblin Warlord of the Eight Peaks, Skarsnik, and his giant Squig Gobbler. The flapping of leathery wings heralds the arrival of Vargoth the Mountain Orc Master Shaman and his bloodthirsty Wyvern and the battle is ready to begin! Orc Boyz rush forward into battle supported by withering fire from the Orc Arter Boyz. Mob after mob of Goblins pour forth like a sea of red eyes and sharp little teeth. Fanatics burst forward as they close with the enemy, their huge ball and chains demolishing even the heaviest of armored foes. Goblin Wolf Riders bound up the edge of the battlefield harrying the enemy flanks. With a loud twang a Goblin Doom Diver is launched into the air, ready to crash down into some unsuspecting unit. It's a never ending threat to the Old World, all in one box and ready for you to take command!

0131 WARHAMMER ARMIES ORCS AND GOBLINS

Waaagh! The greenskins are coming. Orcs and Goblins pour from the mountains to wreak havoc amongst the realms of men. Warlords lead wild and teeming hordes to battle. Orc and Goblin tribes swell the ranks. Torbils and ferocious monsters bellow in fury. Chariots and weird machines rumble forward to crush the enemy. This invaluable companion to the Warhammer game describes the armies of Orcs and Goblins in complete detail.

SKAVEN

With a high pitched squeal of a thousand maddened rats, the Skaven swarm the fields of battle. A rat infestation turned nightmare, the vile rat-men scheme and plot the downfall of all the races in an effort to turn the World into one nation under the Thirteen Lords of Decay.

Skaven
Clanrat
Champion

CHILDREN OF THE HORNED RAT

While the origins of the Skaven remain shrouded in mystery, their current presence is all too noticeable. Under the direction of the Thirteen Lords of Decay, the Skaven construct elaborate plans, some of which take

Alone Clanrats can be skittish, but gathered in a pack they become fierce warriors

decades to bear any fruit. The Skaven themselves are gross parodies of a cross between a man and a rat. Walking upright and possessing cunning intelligence, they are however skittish when left on their own. However when combined in packs, they can be whipped into unstoppable frenzies.

THE UNDEREMPIRE

The Skaven empire is known as Skavenblight. A half sunken city in the middle of the treacherous marshes that cover northern Tilea. Stretching out from Skavenblight like evil tendrils is a massive network of tunnels. These tunnels crisscross the whole of the Old World, leading to every major city, stronghold, and castle. From there the Skaven can unleash their fiendish plots, launch attacks, or spread their deadly diseases.

While Rat-Ogres are brutally savage, they are stupid beasts thus they are herded into battle by Skaven Packmasters

FISTS OF FURRY

The skaven society is separated into clans, and within each clan runs a pecking order. The stronger and more cunning the rat, the better position he will be in. The weak and the slow are captured for slaves, or used as cannon fodder when the Skaven march to war. The larger more robust Skaven, known as Clanrats, form the core units of the Skaven army. Stormvermin form the elite warrior units. These large Skaven, are a match for any foe that dares stand against them.

Each clan has its own niche that keeps it from being enslaved by its rivals. Four clans have risen to prominence in Skaven society. Clan Moulder, who are powerful Beastmasters, breed horrible fighting beasts. Clan Eshin are the feared Skaven Assassins. Clan Skyre are the mystical Warlock Engineers, blending science and magic into strange and mystical devices of destruction. Clan Pestilens, also known as the Plague Monks, develop new diseases and spread them over the Old World with a fanatic fervor. Together these clans work to spread despair and bring down the nations of the Warhammer World!

Pulled and dragged forward by ragged hordes of Skaven, the Screaming Bell is one of the most fearsome creations of the warped Warlock Engineers. Ringing out a mind-ripping peal of death, the Screaming Bell has enough power to raze cities and destroy armies.

Each toll of the warpstone bells drives the Skaven to new heights of ferocity. At the front of the twisted carriage a Grey Seer exhorts the Skaven to an even more frenzied state.

0135 WARHAMMER ARMIES SKAVEN

The vile and malevolent Skaven gnaw through the corners of the Old World like a malignant cancer. Their Under Empire spreads ever outward from its sprawling capital of ancient evil, Skavenblight. Black-clad assassins slink through the sewers, rabid Plague Monks brew magical pestilence, insane Warlock Engineers build their devastating weapons, and feral Packmasters unleash upon their foes. Through the ancient tunnels of Decay the Horned Rat himself, dark god of the Skaven race, cynically guides his children to their glorious destiny of complete mastery of the entire world! This volume, part of the Warhammer Fantasy Battle series, describes the Skaven race and their unspeakable horror in complete and authoritative detail.

CORRUPTION AND DECAY

This comprehensive history of the Skaven traces their origins and their rise to power, detailing their main strongholds of Crookback Mountain, the City of Pleasure, Fell Pit, and the most foul and secret realm of Skavenblight itself.

SPECIAL RULES

Complete game details are included for special units and the internal devices of the Warlock Engineers, including the infamous Screaming Bell, the awesome Doomsday, warplock Jezzail teams, revised rules for the terrifying warfire thrower, Poison Wind Grenadiers, Gutter Runners, Plague Censer Bearers, Rat Ogres and special Skaven magic items.

ARMY LIST

A complete army list for the Skaven includes: From Stormvermin and Clanrats to the most infamous Skaven characters.

UNDEAD

On the plain of bones, hundreds of bodies shuffle along in eerie silence, their skeletons silhouetted against the moonlight. In the swamps of Tilea, decaying corpses mindlessly roam the marshes. And in the ancient necropolis, the dead carry on with day to day duties in a terrifying parody of the living. In the Warhammer World death is not always the end, but a horrifying beginning.

The dreaded Vampire Lords are some of the most evil of the Undead. Their unrelenting attacks and transfixing glares can kill even the best of heroes.

REAPER OF SOULS

The great undead nation came into being with the birth of the most vile and insidious Necromancer, **Nagash**. His reign of terror began over 4,000 years ago in the land of Nehekara. Here Nagash started down the path of Necromancy, first devising elixirs to extend his life, and then eventually refining spells for controlling the dead. In the end his unholy journey led to a master spell to raise all the dead in the land to fight for his nightmare army. His plan to turn the rest of the world into

one undead nation under his command would have worked if not for the treachery of the Skaven. Assassinated by the evil rat things, Nagash's plans fell to ruin and much of his armies were laid to dust. Still a

sorcerer as powerful as Nagash does not stay dead for long! Hidden in his tomb he bides his time, regaining strength and reestablishing control over his scattered undead realm.

WE ARE LEGION

Undead armies are gruesome to behold. Hordes of **Skeletons** marching along with only the clang of rusted weapons to

mark their presence. **Zombies** amble forward, leaving a trail of once vital organs strewn behind them. Horribly degenerated humans called **Ghouls** scuttle about with the hopes of getting the taste of a bit of flesh. Terrifying **Wraiths** swing their razor-sharp scythes, while their chilling touch reduces hardy warriors into gibbering cowards. Leading this otherworldly horde are the Undead elite. Bloodthirsty **Vampires**, who prowl the night in search of life sustaining blood. Sadistic **Necromancers** raid ancient barrows in search of the heroes of old to enslave in their Undead hordes. Even more horrific are the Undead Necromancers known as **Liches**. These evil creatures plot the downfall of man without the bother of human emotions, knowing full well that eventually all will be called to serve in the ranks of the Undead.

Even in death cavalry can be a potent weapon, especially now that they can pass right through walls!

Chaos Champion, Krell serves again this time in the Undead legions.

All across the Old World ancient crypts open up in answer to the siren call of Necromantic magic. An evil glint appears in long-empty sockets. Hordes of the living dead gather, their bones rattling and dry flesh breaking as they are pulled irresistibly to battle by the adamant will of their dark master.

The Undead Army contains a complete 2,000 point army. Included are Necromancer Dieter Helsing mounted on a Manticore, 6 Skeleton Horsemen, 20 Skeleton Warriors, 2 Undead Chariots, 2 Carrion, 2 Screaming Skull Catapults, 2 Wights, 3 Undead Command, 12 Ghouls, 12 Zombies, and a Vampire Count.

Also included is a booklet containing a full army list, characteristics, magic items, and a set of full-color self-adhesive standards and banners for your army.

0134 WARHAMMER ARMIES UNDEAD

In the Warhammer World the dead do not rest easy. Vampires lurk in haunted castles in the sinister forests of Sylvania. Necromancers seek to escape their mortality by searching for forbidden knowledge within the pages of accursed books. In lost cities buried beneath the desert sands of the Land of the Dead, the Tomb Kings rule over legions of corpses, their servants in death as they were in life. And behind all of this towers the gigantic shadowy figure of Nagash, the Great Necromancer, once human but now powerful enough to rival the gods themselves.

THE REALMS OF THE DEAD

A detailed history of the Undead beginning with the birth of Nagash over 4,000 years ago. The Land of the Dead is described together with the many other enclaves and Undead strongholds that are scattered throughout the Warhammer World. A special section reveals the terrible history of the dreaded Vampire Counts of Sylvania, from their rise to power under Count Manfred von Carstein to the present day.

ARMY LIST

This book also contains rules for all Undead creatures, warriors, and war machines. A complete set of 10 Necromantic Magic Spells is provided.

WOOD ELVES

From the heart of Athel Loren, the woods come alive with the sounding of the Horn of the Wild Hunt. The cry of Great Eagles ring out from piney crags, huge green scaled serpents known as Forest Dragons wind their way through ancient, tangled growths, and even the trees seem to come alive to defend the magical forest.

Wood Elf Archers are the deadliest Archers in the world

THE LIVING FOREST

The great forest of Loren is the home of the Wood Elves. Kin to the High Elves the Wood Elves stayed behind in the Old World while their brethren returned to Uthuan, the Elven homeland.

Forced to survive on their own the Wood Elves adapted quickly to the forest life. Their wisdom, fighting techniques and even their magic changed to match the wooded surroundings. They became protectors of the forest, every tree was sacred and every glade was holy ground.

The forest in turn offered up all of its resources to them, providing food, shelter and even its own kinds of protection in the form of ancient and powerful Treemen, and the mystical wood spirits, the Dryads.

AMONGST THE TREES

The forest of Loren is so large and vast that unique communities sprang up. The Elves that settled in the piney crags of the mountains befriended the Giant Hawks that live there, using them to scout over the forest and when necessary ride them into war. Those Elves that settled the grassy glades brought with them the graceful Elven steeds on which they became master riders and charioteers. The Elves that settled in the deep forests became master woodsmen and trackers, able to shadow intruders in the forests and lay deadly traps should they prove dangerous or troublesome.

A Wood Elf Spearman ready for battle

THE WILD HUNT

Archers make up the bulk of the Wood Elf Army. Their special long bows are able to shoot farther than normal bows, allowing a deadly hail of arrows to rain down on the enemy from far away. Wood Elf Scouts patrol ahead of the main force, giving ample warning to their kindred of any approaching dangers. Waywatchers are the ever vigilant forest guard, laying devious traps for the unsuspecting enemy. War Dancers are the most fierce and skilled Wood Elf Warriors, turning the art of war into a deadly flowing dance, leaving the enemy mesmerized just before they fall to the swift thrust of an Elven blade. Glade Riders guide swiftly through the wood on their Elven steeds, while Charioteers crash through the enemy lines.

THE GODS INCARNATE

As if Wood Elves weren't deadly enough, they can be led into battle by their incarnate gods, Orion and Ariel. Orion, the master of the hunt is terrifying

Masters of stealth, Waywatchers are the deadly guardians of the Forest's borders.

0534 DURTHU TREEMAN HERO

Durthu resembles a wizened and gnarled old oak tree. He is ancient beyond reckoning and has endured in the depths of the forest for untold ages. If the Forest of Loren is invaded, Durthu will be disturbed by the sounds of battle and destruction. Enraged, he will lurch through the forest seeking out the intruders and attack them with a savage fury that defies description.

0752 WOOD ELF PLASTIC ARCHERS

Wood Elf Archers form the backbone of the army and are renowned for their keen-eyed and deadly accuracy.

WOOD ELVES

0535 WOOD ELF DRAGON

The Chasm Glades of Loren are home to the rare Forest Dragons which have dwelt there since the dawn of time. Occasionally a Mage or Lord may succeed in tempting a young Forest Dragon to leave the chasm or a thousand-year old egg will be found and warmed up until it hatches. The hatchling will be nurtured for centuries until it has grown into a worthy mount reserved only for the greatest of Mages or Lords.

WOOD ELVES

0537 ORION, KING OF THE FOREST

Orion is the King of all the Wood Elves, holding his court deep inside the enchanted forest. With his realm threatened, Orion assumes the aspect of the old Elven god of Nature – Kurnous, summons his hounds of war and goes to hunt his foe. None can stand against his rage as he charges across the battlefield in a primeval fury. His power is that of a mortal god, his ferocity echoes the rage of the untamed wilderness, and in his hand he carries the magical Spear of Kurnous.

0539 ARIEL, WOOD ELF QUEEN OF MAGIC

Ariel is the Queen of Athel Loren, a wise ruler and a mage of great power. She is the living embodiment of Isha, and the wife of King Orion. When the Wood Elf horns summon the warriors of Loren to do battle, Ariel assumes the awe-inspiring aspect of Isha, the ancient Elven goddess of Nature.

Those few that have angered her and lived to tell the tale, whisper of her piercing scream that shatters bones and cracks open armor, and the beat of her huge wings that heralds the arrival of death.

WOOD ELVES

0508 WOOD ELF BOXED ARMY

Sweeping through the forests of Loren come the Wood Elves! Leading the charge is Cornuc Art, mounted on the back of a Force Forest Dragon, unleashing a torrent of death with his magical long bow. Glade Riders sprint across the open grass, their spears aimed for the enemies' hearts. Wood Elf Archers appear out of the undergrowth, unleashing volleys of arrows into the intruders. Wardancers spring into the fray, weaving their dance of death and cutting down their opponents with a quick flick of a sword. The great Treeman Kern thunders to life, crushing all beneath his massive limbs, and spiteful Dryads repulse the enemy with their lashing leaves and entwining vines. The Wood Elves come forth to defend their forest home with all the fury of nature at their sides!

0138 WARHAMMER ARMIES WOOD ELVES

The Wood Elves are among the most ancient inhabitants of the Old World. Their secret realm, deep in the Forest of Loren, has remained hidden and free for centuries. Tirelessly the Scouts and Waywatchers guard the forest and no enemies have ever been able to conquer their land. The Wood Elves have tamed the savage beasts and giant birds of prey that inhabit their realm, and befriended the strange Treemen and Dryads who dwell in the depths of the forest. Their noble rulers are able to shape-shift into demi-gods to strike dread into the hearts of their foes.

THE WARHAMMER 40,000 HOBBY

In the far future rival armies clash on the fields of battle. Troops in powered armor advance behind great tracked tanks, while above in the skies the high-pitched whine of anti-gravity engines give away the presence of Jetbikes beginning a strafing run. Using armies of Citadel Miniatures the Warhammer 40,000 game puts all the action of these futuristic conflicts right onto your table-top.

GETTING STARTED

The hobby starts with your first Citadel Miniature. From there, you can advance to painting your model, collecting an army, and playing a game.

A Space Marine painted up in Blood Angels colors.

A WORLD IN A BOX

The best way to get into the hobby is with the Warhammer 40,000 boxed game. Absolutely packed full of miniatures, the Warhammer 40,000 box contains rules, dice, and everything you'll need to play. Any flat surface becomes the battlefield where

you and your opponent can maneuver mighty armies of Citadel Miniatures in a fast-paced test of skills and tactics, but the hobby doesn't end there.

EXPANDING YOUR GAME

The excitement and fun of a tightly contested battle is just the start of the Warhammer 40,000 Hobby. As players continue to test their generalship, they can expand their forces with new troop types, futuristic war machines, and entire new armies.

CITADEL MINIATURES

Citadel Miniatures makes a vast range of plastic and pewter models for use with Warhammer 40,000. There are thousands upon thousands of different models to choose from including the units and tanks of the Imperial Guard, the myriad host of creatures found in the hideously alien Tyranid Swarm, the mighty legions of the Space Marines, and more.

From start to finish, the stages of painting a Citadel Miniature

BASIC STEPS

A few of the basic stages of preparation are shown here. Above, A plastic model is cut off the sprue. Right, With a hobby knife the model is carefully cleaned of mold lines. To glue your models use polystyrene cement for plastics, and superglue for pewter. Far Right, After an undercoat the model is ready to be painted.

FINISHED MODELS

Some players prefer to give their models a quick basecoat and run them onto the battlefield. Other people like to lavish their miniatures with details, as well as intricate shading and highlighting. The choice of painting styles is up to you!

The Citadel Colour Paint Set contains everything needed to get started in the hobby

BRILLIANTLY PAINTED MINIATURES

Part of the Warhammer 40,000 Hobby is painting figures. Nothing brings a tabletop battlefield to life like a well painted army of Citadel Miniatures. Games Workshop has created the Citadel Colour range of paints specifically for our models. In order to help beginners get started, the Warhammer 40,000 boxed game contains a basic painting guide. By using a few fun but

simple to learn techniques, players will soon have an army to be proud of. For more advanced techniques look to the monthly painting feature in White Dwarf magazine.

STUNNING GAMING TERRAIN

The first few games most people play will be on a flat tabletop with little terrain but the basic card buildings supplied in the boxed game. Many players will develop the urge to add hills, woods, rivers, and more. Varied terrain makes for more interesting battles and adds whole new tactical challenges to the game. The possibilities are unlimited - dense jungles, the ruins of a

lutaristic city, the list is endless! Making your own scenery is part of what makes Warhammer 40,000 more than just a single game, but an entire hobby as well.

CHAOS

Out of the dreaded Eye of Terror the forces of Chaos burst forth to wreak death and destruction. The fearsome Chaos Space Marines call upon their dark masters for aid when they do battle, and the Chaos gods answer by sending the loathsome daemonic creatures of the warp to fight at their side. Blood for the Blood God!

OPEN REBELLION

In the early days of the Imperium the Emperor's greatest champion the Warmaster Horus, led Titan Legions, countless thousands of Imperial troops, and even some chapters of Space Marines into revolt. The Horus Heresy (as it was later called) wrought catastrophic damage across space, and the tremendous battles only ended after Horus' defeat at the Emperor's hands. With their failure the once loyal chapters of Space Marines fled into the dark realm of space known as the Eye of Terror.

10,000 YEARS OF REVENGE

The Eye of Terror is a nexus where Warp Space converges with real space and magical energies spill into the cosmos. The great gods of Chaos exist in the warp along with their daemonic followers, and it is these dark gods that have lured and reshaped the traitor Space Marines.

In the 10,000 years since their first rebellion failed, the forces of Chaos have not been idle. On countless planets across the galaxy the siren call of Chaos still lures men into rebellion with the promises of dark powers. Daemons of unmentionable evil still lurk in the Warp, waiting for their release. Perhaps the most horrible of all are the Chaos

Space Marines. These are the same warriors from 10,000 years ago, enthralled by the Chaos gods, and still crusading from out of the Eye of Terror to reap bloody revenge.

A Chaos Space Marine with heavy bolter

CRUSH THE IMPERIUM

Few forces in the 41st Millennium inspire fear like Chaos. The key to assembling and winning with a Chaos army is to recognize and use the advantages of each of your units.

A Chaos Space Marine Terminator

A Chaos Space Marine

Given the powerful nature of the Chaos Space Marines, a Chaos army will almost certainly be outnumbered in every game. With little margin for error, Chaos Commanders

must use their matchless skills to break the enemy before

being swamped under superior numbers.

After all, even the almost impenetrable

Chaos Terminator Armour

will eventually fall to a foe with lots of heavy weaponry. **Khorne Berzerkers** are without equal in hand-to-hand savagery, but if they cannot reach close quarters, they are just a wasted advantage! Balanced troop selection and cunning battle tactics are the key ingredients to ensure Chaos slaughter!

ELDAR

Long before humans even dreamed of the stars, the Eldar were already forming an empire that stretched across the cosmos. The Eldar are an ancient and sophisticated race, immersed in a continuous battle for survival in a galaxy now hopelessly overrun by barbaric usurpers.

A Dire Avenger
Aspect Warrior

THE DYING RACE

Once the Eldar race ruled supreme, but their galaxy-wide success led to a growing decadence, then civil war. Finally, the doomed Eldar unwittingly awakened their arch-enemy, the Chaos entity known as *Slaanesh*.

In the end all the Eldar planets were destroyed, and the only survivors of these great tragedies were the Eldar aboard the vast star-spanning spaceships known as Craftworlds.

THE WARRIOR'S PATH

Over the countless millennia since their downfall the surviving remnants of the Eldar population have come out on top of their battle for survival primarily because of superior training and sophisticated technology.

All Eldar have battle training, and the basic trooper is known as a **Guardian**. For the most part, the Guardian Squads are a defensive force, ready to protect a Craftworld from any outside attack. Some Eldar go further in their combat training, becoming masters of a specialized form of fighting - these Eldar are called **Aspect Warriors**. There are many specific types of Aspect Warrior, each one trained and armed to fulfill a different task on the varied and unforgiving battlefields of the grim 41st Millennium.

SEEKING A GRIM REVENGE

The remnants of the once great Eldar civilization are still a force to be reckoned with. Far from giving up, these grim warriors have dedicated themselves to avenging their downfall and ridding the galaxy of the evil forces of Chaos.

In Warhammer 40,000 Eldar armies are loaded with very powerful squads, but true to form the Eldar are never very many in number. The key to victory for players with Eldar armies is to pick the right troops for the situation. *Stinking Scorpion* and *Howling Banshee* Aspect Warriors are excellent for close combat, while the *Dire Avengers* and *Dark Reapers* are masters of ranged combat. For special rules, new equipment, and the fascinating history of the Eldar check out the *Eldar Codex* before you start your galaxy-wide quest for vengeance.

0155 CODEX ELDAR

The Eldar are an ancient and sophisticated race, immersed in a continuous battle for survival in a galaxy overrun by barbaric usurpers. The deadly warriors of the Eldar race fight back with their advanced weaponry and realized battle skills. The rise and fall of the Eldar race is described together with the surviving Craftworlds and the primitive Exodite worlds. ARMY LIST AND SPECIAL RULES

A complete army list for the Eldar army from Aspect Warriors to Warlocks. Complete rules are provided for all Eldar weapons, vehicles, and wargear.

IMPERIAL GUARD

The Imperial Guard is the fighting force raised to protect mankind and human rights. Considering there are over a million Imperial planets, the Imperial Guard has an immense resource of men and equipment to draw from. Whether recruited from desert planets or lush jungle worlds, Imperial troops all join the well-equipped and nigh unstoppable Imperial war machine.

THE ULTIMATE FIGHTING MACHINE

Every planet in the Imperium raises a planetary defense force to defend itself against hostile aliens, raiders, pirates, and the forces of Chaos. The Imperial Guard are mustered from the best of each planet's defensive army.

The great variety of homeworlds where troops are recruited produces an amazing assortment of different looking regiments. For example, the troops from the Jungle World of Catachan look nothing like the men recruited from the freezing ice planet of Valhalla.

No matter where the Imperial Guard troopers come from, they are trained, armed, and equipped to deal with any foe.

MECHANIZED HEAVY METAL

Of all the armies of the 41st Millennium, the Imperial Guard relies the most on massive war machines such as tanks and mobile artillery. While regiments

of infantry are certainly profuse, it is hard to pass up the massive supporting fire supplied by a Basilisk mobile artillery platform, or the heavily armed and deadly Leman Russ battle tank.

"See the Universe - Join the Imperial Guard!"

Famous Recruiting Slogan of the Imperial Guard

RECRUITING YOUR ARMY

The sight of an Imperial Guard army laid out across the battlefield is quite impressive - the essential command squads, deadly heavy weapon support teams, squads of infantry neatly lined up, and the multitude of support. Commanders must choose from a variety of tanks, personnel carriers, and artillery, as well

as selecting specialty troops like veteran squads, the brutish Ogryns, or the sniping Ratlings.

The first step in collecting an Imperial Guard army is to pick up the **Imperial Guard Codex**. This essential tome contains all the rules, special weapons, and points values for the Imperial

Guard. With this book in hand it will not be long before you are relentlessly driving the foe before you, or utterly crushing them beneath the steely treads of the nigh unstoppable Imperial Guard.

Sisters of Battle

The Imperium

The Imperium is a vast empire containing thousands of worlds and billions of people. A part of this vast network is the Adeptus Ministorum, also known as the Ecclesiarchy. Its mission is spread the will of the Emperor across the Universe.

THE CULT OF THE EMPEROR

Without the Emperor humanity would have had no future. He single-handedly brought his people from the wastes and built a vast empire that stretched across the stars. With his apparent death came a frightening moment when the Imperium would crumble. But, the Cult of the Emperor was born and gave Humanity something to believe in.

THE ECCLESIArchY

Like one great monastic order, the Ecclesiarchy sustains and perpetuates the Cult of the Emperor. There are many branches of the Ecclesiarchy, from the mundane offices that oversee the day to day running of a planet to the militant orders that quell rebellions and crush the influence of Chaos.

THE DAUGHTERS OF THE EMPEROR

When the borders of the Imperium are threatened the Space Marines and the Imperial Guard are sent to war. But when it comes to keeping a world from falling into the perverse ways of Chaos, or routing a rogue planetary governor, the Sisters of Battle are called forth.

RIGHTEOUS FURY

The Sisters of Battle are totally devoted to the Cult of the Emperor, and enforce his will wherever they roam. Broken down into several different orders, these female warriors employ a vast array of deadly weaponry

and armor to quickly dispatch the enemy.

SPREADING THE WORD

There are numerous other warriors in this holy crusade. Many planets that reside within the Imperium lack the guidance of the Ecclesiarchy, either having been cut off from humanity by fierce warp storms or enslaved by aliens. It is the job of the Missionaries to convert these worlds and lead them back into the fold. Armed with little more than an undying faith in the Emperor, these men suffer hardships and pains that would easily crush lesser men. Supported by Preachers and the Frateris Militia, holy wars can be called upon a planet in order to cleanse it of the unrighteous and bring it back under the guidance of the Ecclesiarchy.

THE SWIFT ARM OF JUSTICE

The Imperium also contains many other warriors, from the justice dealing Adeptus Arbites which try to keep peace among the great Hive Cities to the revered Grey Knights whose job is to seek out and destroy the fierce daemons of Chaos. Keeping order among the worlds of the Imperium is no easy task and a constant vigilance must always be maintained else Humanity will fall. Long live the Emperor!

With their elite training, superb wargear and unshakable faith in the Emperor, the Sisters of Battle have crushed the foes of mankind in countless battles across every part of the galaxy.

THE ADEPTUS MINISTORIUM

hathlex. Also provided are guidelines for using the forces of the Ministorum as allies for other Imperial organizations. Finally, the Special Characters section profiles some of the mighty individuals in the Ministorum.

981571 CODEX ASSASSINS

This 24 page book is one of a range of Codex supplements for the Warhammer 40,000 game. Each Codex forms a complete hobby guide to a particular part of the Warhammer 40,000 universe. Packed full of background information, special rules, army lists and much, much more, they form an invaluable guide to collecting, painting, and gaming with armies of Citadel Miniatures.

AGENTS OF DEATH

The Imperial Assassins are totally awesome combatants, each one trained to excel in all the arts of death and use some of the most deadly weapons in the Imperium. Full rules for their unusual wargear and skills are given to enable you to add the full destructive potential of these devastating warriors to your Imperial armies.

OFFICIO ASSASSINORUM

The Vindicare Assassin is the Imperium's arm of vengeance. Equipped with the deadly accurate Exitus longifle, they leave false messiahs and self-proclaimed prophets with nowhere to hide!

The Cathidus Assassin strikes from within, using special shape-shifting abilities to assume the identity of enemy troops and allowing her to strike at the very heart of a rebellion.

The Eversor Assassin specializes in unstoppable assault. Armed with awesome weaponry and pumped full of combat stimulants, the Eversor tears the heart out of the enemy operation.

The Culexus Assassin hunts down enemy psykers and drains them of their powers before sucking out their very essence in bloody hand-to-hand combat.

SPACE MARINES

The Space Marines are the finest human warriors of the Imperium. Recruited from the most skilled and ferocious fighters in the galaxy, each Space Marine is then genetically altered to add strength, speed, and toughness far beyond the scope of any ordinary man. Equipped with the best weapons and armor in the Imperium, the Space Marines are mankind's last line of defense.

A Space Marine from the Legion of the Damned

EMPEROR'S FINEST

The history of the Space Marines is the stuff of legend. To delve further into their rich history you will need to check out the Ultramarines Codex. In the short version, suffice it to say that the first Space Marines were created by the Emperor through genetic manipulation.

Born a normal, although talented human, a Space Marine recruit is chosen at a young age. The conversion into super-warrior is achieved through implantation of genetically cultured organs, selected hormone increases, and more. When properly trained and given the best equipment, powered armor, and weaponry available, the end result is a member of the Emperor's finest, the Imperial Space Marines.

CODEx CHAPTERS

The Space Marines are split into 1,000 well organized, fully equipped independent armies known as chapters. Each chapter of Space Marines has its own history, as well as specific guidelines for organization, tactics, and insignia. Some Chapters, like the Ultramarines, will rigidly follow the Imperial guidelines (called the Codex Astartes), others, like the Space Wolves, are fiercely independent. Regardless of specific rules and regulations, all the Imperial Space Marines are united in their devotion and fierce loyalty to the Emperor!

A Space Marine of the Ultramarines Chapter

HAMMER OF THE EMPEROR

Space Marines come in many different chapters, which gives Warhammer 40,000 players who want to field the best troops in the Imperium lots of options. If you want to follow a published army list with fully detailed histories, special characters, and paint schemes, you can look for the Space Wolf Codex, the Ultramarines Codex and the Angels of Death Codex (which contains the full Blood Angels and Dark Angels Space Marine army lists).

As there are 1,000 different chapters of Space Marines and only a small percentage are detailed in the various Games Workshop books, that leaves a lot of room for creativity. Many players invent their own Space Marine Chapters, including color schemes and past

No matter which chapter you finally choose, remember that the Space Marines are the most elite fighting force in the galaxy. Forward for the Emperor!

0154 CODEX ANGELS OF DEATH

The Dark Angels and the Blood Angels Space Marine Chapters are both dedicated guardians of the Imperium and loyal servants of the Emperor. To mankind they are awe-inspiring figures that bring hope and salvation. To the enemies of mankind they are creatures of terror and dread. Yet each harbors a sinister millennia-old secret that sets them apart from their brother Space Marines and may yet bring them both eternal damnation.

THE DARK ANGELS

The Dark Angels were the very first Space Marine Legion and are regarded as the epitome of the dedicated Space Marine warrior: serious minded, slow to anger, but tenacious and all but unstoppable in their zeal once aroused. Yet behind this impressive facade lies a truth that is altogether more sinister, for the Dark Angels have been carrying on a secret Crusade which began over 10,000 years ago following an act of terrible betrayal.

THE BLOOD ANGELS

The Blood Angels are amongst the most ferocious and blood-thirsty of all the Space Marine Chapters. Even though they have proved themselves in countless battles to be the most loyal servants of the Emperor, they remain the most feared and least trusted of all Space Marine Chapters.

0153 CODEX SPACE WOLVES

In ages past the Mighty Primarch Leman Russ led the Space Wolves Chapter of Space Marine warriors. He was unsurpassed for ferocity in battle and no Chapter was as headstrong and battle keen. This invaluable companion to the Warhammer 40,000 game describes the armies of the Space Wolves Chapter in complete detail.

THE MIGHT OF THE SPACE WOLVES

The creation of the Space Wolves Chapter in the days of the Primarch Leman Russ is described together with their forbidding homeworld, the icy planet of Fenris.

A complete army list for the Space Wolves Chapter is given together with special characters such as Njal Stormbraker, Ulrik the Slayer, Ragnar Blackmane and Logan Grimnar.

0157 CODEX ULTRAMARINES

The Ultramarines are the greatest of all Space Marine Chapters. From the dawn of the Imperium they have served the Emperor with loyalty and a ferocity that no others can match. Their Primarch, Roboute Guilliman, wrote the Codex Astartes, and the Chapter has exemplified its teachings ever since. The Ultramarines were instrumental in the defeat of Horus, Fleet Behemoth, saving the Imperium from almost certain destruction by the Tyrants. They are the warriors of Macragge in the realm of Ultramar, and in faith and in valour they are unmatched.

THE BIRTH OF SPACE MARINES

The creation of the Space Marines and the subsequent rebirth of the Codex Chapters under the leadership of the Great Primarch Roboute Guilliman of the Ultramarines.

ORKS

Space Orks are a green-skinned and ferocious race, bent on fighting anything that dares to stand in their way. The Orks live for war, eager for battle against any opposition, whether it is human, Eldar, Tyranid, Chaos, or even other Orks! The tendency to fight amongst each other is perhaps the only reason Orks don't currently rule the universe.

WAAAGH!

'Ere we go Orks are tough, brutal, and a remarkably widespread

race. Their society is broken into huge clans, each clan having its own distinctive behavior and habits. Of course you can not overlook the Orks' smaller cousins, the not-incredibly-brave, but extremely numerous Gretchin

Orks control a significant part of known space, but this territory is not in the least united. In fact, Orks spend so much time fighting each other, that the full brunt of an Ork offensive is rarely felt. On occasion, however, Orks manage to form a huge cohesive army under a particularly dominating Warlord. These great Orkish crusades are known as a Waaa-Ork, or Waaagh!, and they are greatly feared throughout the galaxy

ORK CLANS

Putting together an Ork army is easy and fun, as the Orks have a lot of character. Each of the six main Ork clans have their own models, paint schemes, weapons of war, and battle tactics. For example, the Orks of the Goff clan prefer to dress in black and are notoriously ill-humored. In fact Goffs

Orks are far too impatient to operate field artillery like this Splatta Kannon and so they leave the job to Gretchin!

A Blood
Axe
Kommando

have the reputation of being the biggest and baddest of all Orks - they prefer to equip themselves with close combat weapons and then deal out their damage in hand-to-hand. In contrast, the Evil Sunz clan favors bright red which fits their flamboyant lifestyle. Nothing attracts an Evil Sunz Ork more than a fast and loud warbike painted red (because as the old Ork adage goes, "Red wunz go faster!")

A ROLLING TIDE OF GREEN

When putting together and outfitting an army, Ork Warlords are spoiled with choices. With a plethora of different troop types and war machines to select from, Orks need to keep in mind what type of game they want to play

For a fast hit-and-run assault type of player, you can't go wrong with the mechanized war bike and buggy squads of the Evil Sunz. The best looters in known space, Orks of the Deathskull clan have access to loads of heavy weapons - this makes them the clan to go to for massive firepower

The choices are nearly endless, with war machines, Dread-

noughts, and elite units like the Stormboyz Korps! Of course many Ork Warlords, in typical green-skin fashion, lump in as many troops as they can and charge. In the immortal words of legendary Ork Warlord Brakka, "Krush dem a!"

0156 CODEX ORK

The Orks are the most savage and warlike race in the whole galaxy. Their huge empire is divided among thousands of Warlords. The Orks live for war and are constantly striving to defeat their neighbors whether they are human, Eldar, or even other Orks! Were the Orks ever to unite it is unlikely that anyone could survive against them for very long. This essential companion to the Warhammer 40,000 game describes the Orks and their armies in complete and exhaustive detail.

WAAAGH DA ORKS!

A comprehensive background section describes the origins of the Ork race and all aspects of Ork Kultur. The different clans and types of Ork are described along with Ork technology, the Ork gods, and the relationship between the Orks and the other green-skinned races such as Gretchin and Snollings.

TYRANIDS

From out of the icy void of space comes a terror unlike any other. The Tyranids come, driven by the single-minded consciousness of the hive-mind, to utterly destroy and consume all who would stand in their way. Decimating whole galaxies, the Tyranids leave behind them only a bloody path of lifeless planets.

DOMINATE, CONSUME, EXPAND

The massive Tyranid fleets have come from the depths of cold space to conquer. Totally alien from mankind, the Tyranids are directed by the Hive Mind, the group consciousness that directs the billions of Tyranid creatures, and ties each individual into the collective intelligence.

Even more frightening is the unique Tyranid ability to evolve equipment out of living tissue. This means that everything the Tyranids use, from weapons to entire spacecrafts, is a living creature in its own right - especially evolved for the task at hand by the Tyranids.

BIO-CONSTRUCTED DEATH

As the Tyranids continue their never-ending search for living materials to consume for their own needs, they have had to evolve some potent symbiotic weaponry to overcome resistance. When choosing their troops, Tyranid Commanders have a wide variety of bio-engineered warriors to choose from, each suited for a different role on the battlefield.

The **Genestealers** and **Hormagaunts**, for example, are awesome in hand-to-hand combat, but with no ranged attacks, both troop types are vulnerable as they advance across the table to engage the enemy.

Some troops, like **Tyranid Warriors** are potent at both ranged and close combat, depending on how you choose to equip them. A **Venom Cannon** can rain death from a distance, while **Boneswords** are only for close combat.

CHOOSING YOUR SWARM

When it comes to actually building a Tyranid Army for Warhammer 40,000 a Tyranid Commander is presented with two distinct advantages - the first of which is a vast horde of great Citadel Miniatures, and the second is a varied and playable army list which can be found along with special rules and background in the **Tyranid Codex**.

Whether you choose a small but powerful army full of **Hive Tyrants** and **Carnifexes**, or try to sweep the foe under a living tide of **Termagants** and **Gargoyles**, the Tyranid Army offers endless possibilities. There is a big universe out there, now go out and consume it!

0159 CODEX TYRANIDS

A vast and alien intellect has risen from the void of intergalactic space. The single monstrous entity which is the Tyranid race has found a new, rich feeding ground: the human galaxy. Driven by the single consciousness of the hive mind, the Tyranids consume every living thing in their path. The bio-engineered warriors of the hive mind overrun world after world, each generation becoming better adapted to hunting their new prey. The galaxy is doomed to become a barren lifeless wasteland if the Tyranids cannot be stopped. This invaluable supplement introduces the full horror of the Tyranid hordes to the Warhammer 40,000 game.

THE TYRANID INVASIONS

The first and second Tyranid invasions are described, including the fate of Tyran, first planet of the Imperium to fall to the invaders, and Macragge, where the first Tyranid invasion - Hive Fleet Behemoth - was finally stopped. The sinister strategy of the second Tyranid invasion force, Hive Fleet Kraken, is also detailed along with the insidious spread of the Genestealers.

As well as Warhammer and Warhammer 40,000 there are many other Games Workshop games. These are set in the Warhammer or Warhammer 40,000 universes and each has its own range of exciting supplements and miniatures.

NECROMUNDA

The planet of Necromunda is an inhospitable world of toxic pollutant wastes and burning clouds of acid. Its people live in huge sealed cities

called hives – layer upon layer of ancient buildings, from the decayed and crumbling Underhive, through the manufacturing areas of the Hive City up to the glittering spires inhabited by wealthy nobility.

In the nightmare Undercity players control gangs of fighters prepared to battle it out amongst a three dimensional landscape of ruined buildings, gantries and walkways. Your tabletop becomes the scene of the action – a part of the sprawling subterranean wastes – as you fight for the spoils of a decrepit civilization.

GAMES DAY

GOLDEN DEMON

Games Day is the biggest Games Workshop gaming event of the year. Thousands of people come along to experience all aspects of the hobby - from high intensity gaming to miniature painting contests and more.

Every year at Games Day hordes of miniature painters gather to enter the Golden Demon Competition. Not only is this a chance to test your mettle against the best painters in the world, but you can view hundreds upon hundreds of fantastically painted entries.

All day long there are events to take part in, battles to fight, new games to learn, new releases to check out, and of course, how can we leave out the sheer amount of high octane Waaagh! energy that so much excitement generates. Don't miss out!

Games Day is held every summer in the Baltimore, Maryland area. For more information and exact dates of this year's extravaganza, give our Customer Service a call at:

THE GRAND TOURNAMENT

While most people, including ourselves, play Games Workshop games in a light-hearted manner, there is no denying that the challenge of a tightly-contested tournament match is hard to resist.

QUEST FOR THE BEST

The Grand Tournament is an "official" Games Workshop Warhammer and Warhammer 40,000 tournament.

The ultimate challenge for an ardent Games Workshop hobbyist, a Grand Tournament tests not only a player's generalship, but also sportsmanship, army selection, game knowledge and miniature painting. To win it all, you must combine excellence in all categories over the course of a non-stop gaming weekend.

INTERNATIONAL FAME

Because the Games Workshop hobby is international, the Grand Tournaments had to be world-wide as well! Currently Games Workshop holds a Grand Tournament in England, the United States, and Canada, but more may be added by the time you read this!

Along with the tournament the weekend is filled with other activities, including the infamous Jervis Johnson pub quiz, and a great chance to meet other gamers. The winners of course, can gain international fame and their very own spotlight in White Dwarf Magazine!

FOLLOW THAT DWARF

If you are interested in entering a Grand Tournament keep your eyes on White Dwarf magazine. In White Dwarf we will announce where and when the next Grand Tournament will be. All Grand Tournament rules and entry forms will be supplied as well.

So sharpen up your blade, and double check the ammo for your boltgun. Good luck and we hope to see you there!

GAMES WORKSHOP
WEBSITE

While not as far-reaching as the Emperor's Astronomicon, the Games Workshop website is up and running. Surf by and check it out . . .

WHAT YOU'LL FIND AT OUR WEBSITE

The Games Workshop website is aimed at both seasoned hobby veterans and newcomers looking at our product line for the first time. There is a library of painted Citadel Miniatures that you can bring up on screen and check out, as well as a mountain of game background, history, new releases, and White Dwarf articles. You'll even find gaming tips, painting tips, and more.

BUT THAT ISN'T ALL . . .

Of course just showing off all the different games isn't enough - we also have to tell you where you can get your hands on your very own stuff! The Website has an easy-to-access directory that can tell you where your nearest Games Workshop store, Chapter Approved shop, or other decent Games Workshop stockist is located. In the United States and Canada all the stores are broken into States or Provinces, so you can quickly check out your surrounding area! We include phone numbers so you can call ahead to make sure of hours and that they'll have what you are looking for. Call them to find out about upcoming games, events, etc. This could be a great way to find a whole new group of opponents! Now if you travel (say on a vacation), you can instantly find out where your best chances are for drumming up a game, or keeping up with your favorite hobby. This area is updated every month, so stop by and see if any new stores or stockists have opened near you!

If there are no shops in your local area, then you will want to check out the Games Workshop on-line store. From here you can buy games, supplements, even miniatures and conversion bits. Barring warpstorms, we're open 24 hours a day. Currently we can only take orders from inside the United States!

UPDATE UPDATE UPDATE

One way or another the hard-working techpriests try to update the website every week. Along with stocking the latest models into the on-line store, we'll be previewing all the latest and upcoming releases, posting all the hot news items, and letting you have all the inside gaming tips we can catch in our web! Be sure to bookmark us and surf by - after all, you don't want to miss out on anything do you?
